

GB5 AV

www.coffeeculture.ie
01 9012010

Beautiful curves set this GB5 apart from the straight simple lines of the Linea Classic and PB. Named after his wife Giovanna Bambini in 2005, Pierro Bambini released this style icon for the speciality industry. As a centrepiece on a barista counter this is exceptionally well designed and a eyecatching.

The Good

- * **Saturated Groups:** ensure unsurpassed thermal stability, shot after shot.
- * **Dual Boiler System:** separate boilers optimize espresso brewing and steam production.
- * **Dual PID (coffee and steam):** allows you to electronically control coffee and steam boiler temperature.
- * **Insulated Boilers:** reduce energy consumption while contributing to temperature stability.
- * **Ruby Flow Restrictors:** synthetic ruby flow restrictors resist scale formation and erosion.
- * **Pre-heating System:** prior to entering into the coffee boiler, water is pre-heated – thus increasing productivity.
- * **Milk Speed 15 seconds for 10oz**

The Bad

* Nothing bad to say really. Has all the thrills and add-ons that you don't have in the Linea models. The real benefits are in customisation and add ons.

Optional Extras.

Extra Group
High Legs
Barista Lights 2 GR /3 GR
Brass treatment
Black/White Powder Coating
Custom Powder Coating
Illuminated Logos
