

# LINEA PB AV

www.coffeeculture.ie  
01 9012010

In 2013 Pierro Bambini [PB] updated the Linea Classic to the Linea PB. With simplified lines and a lower profile to aid customer engagement, the PB is equipped with exclusive, user friendly interface software that gives the barista direct functional control over boiler temperature, brewing volume, hot water tap dose, auto-back flush as well as other options.

## The Good

- \* **Saturated Groups: ensure unsurpassed thermal stability, shot after shot.**
- \* **Dual Boiler System: separate boilers optimize espresso brewing and steam production.**
- \* **Dual PID (coffee and steam): allows you to electronically control coffee and steam boiler temperature.**
- \* **Insulated Boilers**
- \* **Eco Mode: [stand-by / overnight mode]**
- \* **USB: making it possible to update firmware remotely**
- \* **Milk Speed 15 seconds for 10oz**

## The Bad

\* Nothing bad to say really. Has all the thrills and add-ons that you don't have in the Linea Classic.

### Optional Extras

- Extra Group
